

## Progress Report

**Name:** Adeyimika Agboola Adetunji  
**Course:** Stateflow Onramp  
**Progress:** **87%** complete (as of 7 June 2025)

### Chapters

- |  |             |                |             |
|--|-------------|----------------|-------------|
| 1. Course Overview                         | <b>100%</b> | 12. Conclusion | <b>100%</b> |
| 2. State Machines and Stateflow            | <b>100%</b> |                |             |
| 3. Creating State Charts                   | <b>100%</b> |                |             |
| 4. Stateflow Symbols and Data              | <b>100%</b> |                |             |
| 5. Chart Actions                           | <b>100%</b> |                |             |
| 6. Chart Execution                         | <b>100%</b> |                |             |
| 7. Project - Robotic Vacuum                | <b>100%</b> |                |             |
| 8. Flow Charts                             | <b>100%</b> |                |             |
| 9. Functions in Stateflow                  | <b>66%</b>  |                |             |
| 10. Chart Hierarchy                        | <b>50%</b>  |                |             |
| 11. Project - Robotic Vacuum Driving Modes | <b>33%</b>  |                |             |
